Abstract (Luis)

I Introduction (Hermann)

II Background (Brian)

III System overview

    a) V2V communications
- analyzation of the requirements
- first approach
- definition
- development
-

    b) V2I communications
- analyzation of the requirements
- first approach and use-cases
- analyzation of the requirements
- first approach and use-cases
-

    c) Queuing
- analyzation of the requirements
- first approach and use-cases
- analyzation of the requirements
- first approach and use-cases
-

IV Implementation and Simulations

Conclusion (Enkeledi)
